Profile

I am a Researcher at AIST Artificial Intelligence Research Center, Japan. I received my Ph.D. degree in Information Science and Technology from The University of Tokyo in 2020. Before joining AIST in April 2026, I was a Research Scientist at RIKEN AIP. My research centers on natural language processing. In particular, I am interested in how we can build foundations that enable people, society, and AI systems to access trustworthy knowledge. Recently, my work has particularly focused on Retrieval-Augmented Agents.
